

GOLDEN IDEAS & PRODUCTS

Established in Germany, Golden Ideas and Products GmbH (GIPCO) has started its journey as a trading company, with a focus on importing and exporting a wide variety of industrial equipment.

Thanks to its well-experienced engineers and consulting services, GIPCO GmbH is committed to promoting, protecting, and safeguarding the interest of its customers, and meeting their needs. GIPCO GmbH can supply goods from various brands including **SIEMENS**, **ABB**, **ISB**, and **KCP** to name but a few which can be used in different industries like Oil and Gas, petrochemical units, steel, automotive, etc. The whole process of procurement, from the assessment of the customer's requisition to delivering the product to the customer, gets done by well-trained staff.

We endeavor to provide the highest quality products at the most affordable price. But this does not end here. Our engineers are readily available to help the clients and provide them with the best possible service upon purchasing the products.
